

# SERVER CABINET, WALL-MOUNTED' 19" 3+4U 180MM

19" wall-mounted server cabinets enable the installation of devices in places with limited space. The product allows the installation of several devices. The open back and break-out cable entries help with the installation of equipment inside the server cabinet. The cabinet can be used for installation, organisation and storage of devices compliant with the 19" standard.

## CONSTRUCTION

- The server cabinet is made of cold-rolled steel, DC01. Powder coated (RAL 9005).
- Vents are located at the front of the cabinet.
- Easy to break out cable entries placed at the top, bottom and the back of the servr cabinet.
- Two types of RACK strips (3U and 4U) placed inside the cabinet for horizontal and vertical mounting.
- Possibility to mount the cabinet to the wall with wall plugs (not included in the set).
- Patent lock with a set of two keys included in the set.
